

## **Fall Arrest Linostop II**

## **Product information**

The safety rope is suitable for roof work and is equipped with an integrated rope grab and energy absorber. Three different lengths to choose from: 10, 15 and 20 m. The safety rope can be used on a flat roof or on a sloping roof, but the fall is stopped only when drop vertically. In other words, a safety rope with a grabber has a fall arrest system. The safety device stops the fall only in a vertical fall or at a maximum angle of 15°.

- kernmantle safety rope Ø 12 mm
- integrated rope grab + ABM energy absorber
- safety connectors AZ002 + AZ002A

Material: Rope polyester | energy absorber polyamide
