

## Hand pallet truck 2500 kg with mechanical assistance

### Product information

High quality hand pallet truck equipped with a mechanical support. Pallet truck with a full load can be easily moved by pumping the handle. Support is also equipped with a brake which keeps the pallet truck in place on a slanted surface, thus making it possible to move a heavy load on inclined ramps and over small thresholds with small force. Support can be disabled via a switch (on the handle) after which the pallet truck operates normally. Bogie wheels in front and turning angle 210°.

**Features:** Wheels: PU

**Material:** Steel

**Marking:** CE-marked
