Safety Harness P-03

Product information

Rear / dorsal D-ring

Chest anchoring

P-03 safety harness is a full-body harness for personal fall protection when working at height. It conforms to EN 361 and is suitable for users with a maximum total weight of 140 kg, including equipment and tools.

Best used for:

- Fall protection during professional work at height.
- Applications in explosion-hazard zones requiring a suitable safety harness.

Product benefits:

- 45 mm polyester webbing provides a robust harness construction.
- Galvanized steel connecting and adjustment buckles support secure adjustment.
- Optional RFID/NFC transponder supports digital identification and traceability
