Self-retracting Lifeline CR 300

Product information

The CR 300 fall arrester is an individual fall protection device for vertical work requiring significant mobility in relation to the anchoring point. It uses a retractable 4 mm galvanized steel line and is designed for one person with a maximum total user weight of 140 kg, including equipment and tools. No additional shock absorber is required.

Best used for:

- Vertical work where significant movement from the anchoring point is required
- Single-user fall protection requiring an 18 to 28 m line

Product benefits:

- Conforms to EN 360:2023 for retractable fall arresters
- 4 mm galvanized steel wire rope provides durable fall protection
- Available in 18, 20, 25 and 28 m lengths
- Supports users up to 140 kg, including equipment and tools
- Optional RFID/NFC transponder supports equipment identification and traceability
