# Storage rack for lifting equipments

**Product information**

The rack is designed for keeping and storing various lifting equipments.The rack is suitable for example for chain slings, hoists, webbing slings and round slings as well. In the rack, the lifting equipments stay organized, clean and dry. A convenient and space-saving solution for storing different kinds of lifting products. The rack is the size of a Euro pallet, so it can be bolted/screwed to the pallet, making it easy to move with the help of e.g. pallet trucks. A horizontal beam with hooks for the middle part of the rack, set of nylon wheels and additional hangers are available as accessories.
