

Collision guards and bollards

Product information

Durable crash and collision guards provide effective protection for machinery, equipment, shelving and storage goods. The bollards are made of strong, welded steel tube. It is also ideal for delimiting loading docks and unloading areas and for separating different departments or areas. The bollards can be freely combined, allowing for flexible delineation of traffic lanes and flexible organisation of areas according to needs. Bolted to the floor.

Material: Steel

Finish: Painted yellow/black

Note: Does not include mounting accessories/bolts
