

Fall Arrester CRW 310

Product information

The CRW310 is the next-generation device combining the functionality of a self-retracting lifeline with a rescue lifting system. It is a direct successor to the proven CRW300 model, offering the same key performance parameters in a redesigned construction compliant with the latest standards.

The housing is made of durable aluminum alloy, and the device is equipped with a galvanized steel retractable rope. The CRW310 features a manual winch with lifting and lowering functions. It can be used as a standalone device or in combination with selected tripods. For tripod installation, a dedicated mounting bracket is required.

Material: Aluminium Alloy, Galvanized Steel

Marking: According to standard, CE-marked

Standard: EN 360, EN 1496-B
