

Double J-hook with integrated magnet part

Product information

The magnetic hook/tie-down end strap is an innovative load securing aid that makes it easier to attach tie-down straps to metal surfaces and attachment points. The magnet integrated into the hook keeps the hook in place during installation, freeing up the user's hands and significantly speeding up the work. The hook is suitable for 50 mm webbings.

- Magnet integrated into the hook
- Holds the hook in place during installation
- Speeds up load securing, especially when working alone
- Durable construction for professional use

We can manufacture customized load securing straps with magnetic hooks for our customers in our own sewing workshop. Ask [our sales team](#) for a quote!

Material: Steel / plastic

Finish: Cr6+ free
