Storage shelving

Product information

Modular large steel shelving unit for professional and warehouse use.

Extremely sturdy steel shelving unit for heavy-duty storage in industrial halls, warehouses, or garages. The four sturdy wire shelves are adjustable, and the shelf units can be connected together as needed. The self can also be used as a tire rack without the shelves. Assembly requires no special tools.

Features:

- width 195 cm / height 182 cm / depth 61 cm
- load capacity per shelf 600 kg
- 4 wire shelves
- wire shelves can be removed individually
- expandable modular system—shelves can be connected to each other
- shelf height adjustable according to column perforations
- packed in a cardboard box
