

Telehandler lifting adapter for forklift, for big bags

Product information

1-point lifting adapter is suitable – after mounted to a separate forklift – for lifting and moving big bags. Telehandler type boom is equipped with an open hook spike, so the big bag can be handled with a single-point grip. The adapter is placed on the forklift's fork tines from its frame pockets and secured in place on the fork frame with a fastening chain. The boom has a telescopic arm, which allows its working length to be adjusted between five fixed adjustment holes.

Features:

- WLL 710–1000 kg (observe capacity reductions from maximum for different adjustment distances of the telescopic arm according to the operating instructions)
- Fork pockets (W x H x L) 190 x 65 x 905 mm, free space between pockets 75 mm
- Overall dimensions (W x H x L) 480 x 815 x 1450 mm (boom in 1st adjustment hole)
- Hook spike length from root to tip 160 mm, \varnothing 40 mm

Material: Steel

Finish: Painted, yellow
