

Cam buckle straps camouflage 25 mm

Product information

Haklift's camouflage cam buckle strap combines versatile securing with a distinctive appearance inspired by Finnish camouflage patterns. The 25 mm wide cam buckle strap is suitable for a variety of light-duty securing and bundling applications in industrial, recreational and hobby use.

The polyester webbing in camouflage colours gives the strap a distinctive, field-inspired appearance. The colour scheme complements hunting and outdoor equipment as well as off-road vehicles.

The webbing is manufactured from 100% polyester, providing a durable and easy-to-handle solution for various securing applications. The cam buckle allows quick and convenient tensioning without a ratchet mechanism, making the strap particularly suitable for applications where fast and easy load securing or adjustment is important.

Thanks to its compact design, the strap is easy to handle, store and carry as part of your equipment.
